Date of Birth: 1st November 2003

Languages Known: English, Hindi and Mara

Address: Pune, Maharashtra

Profile Summary

- Full-Stack Developer specializing in the MERN stack, with a strong focus on building scalable and user-centric web applications.
- Experienced in creating dynamic projects with seamless front-end and back-end functionality.
- Passionate about solving real-world problems and continuously enhancing technical expertise.

Academic Projects

Web Development Project – Shravasti Aadhar Foundation

[July 2024 -Sep 2024]

Collaborated with a team to design and develop a fully functional, responsive website for Shravasti Aadhar Foundation, an NGO supporting underprivileged communities. Key contributions included:

- Crafting an intuitive user interface and seamless navigation.
- Implementing features such as contact forms and donation portals to enhance user engagement.
- Ensuring cross-platform compatibility and optimal performance.
- Showcased strong teamwork, problem-solving, and technical expertise in web development.
- Website Link <u>www.shravastifoundation.com</u>

Weather Web App Project [Feb 1 – Feb 10, 2025]

- Developed a dynamic and responsive Weather Web App that provides real-time weather updates based on user input.
- Integrated APIs to fetch weather data and display temperature, humidity, wind speed, and other relevant details.
- Implemented a user-friendly interface with interactive design elements.
- Technologies used: HTML, CSS, JavaScript, React, and OpenWeather API
- Live Demo -https://api-integration-gamma.vercel.app/

Achievements

Team Collaboration

Worked in dynamic teams to deliver high-quality software and marketing projects under tight deadlines.

Tech Gurukul Workshop Completion

Completed an advanced Excel workshop, mastering 200+ formulas, creating dashboards, and utilizing Macros and VBA for AI-powered data automation. Ready to apply these skills to enhance data analysis and drive project efficiency
